## Husqvarna K760

The K760 is equipped with Husqvarna's X-Torq® engine that reduces emissions up to 75% and lowers fuel consumption. Specially developed for two stroke engines, X-Torq® utilizes dual intakes; one for clean air and one for a fuel-air mixture. The clean air intake forms a barrier that delays the fresh fuel mix from entering the engine while assisting in exhausting the burnt gases. Then the fuel-air mixture flushes into the engine resulting in more power and less emissions, compared to conventional two stroke engines.

# Erosion and Storm Drain Control

WWW.SAFETLITE.COM

## Rice Straw Wattles

DIMENSIONS 9" X 25'  
Item# SC-RS925

Rice straw wattles, when properly installed, reduce the rate of water flow, absorbing water and filtering sediment. A significant amount of sediment will drop out of the water behind the wattle during a rain event. Rice straw is weed free and naturally biodegradable, enhancing the soil and helping vegetation become established. On steep slopes, wattles used in conjunction with a properly designed and installed erosion blanket results in an extremely effective BMP.

## Silt Fence

Item# SF36DOT

Silt Fence – is a woven geotextile fabric fence with hardwood stakes attached. Designed to pond or trap silt behind fabric. Fence fabric must be installed 6-12" into soil and backfilled. Typical roll size is 3'x100' with 48" hardwood stakes installed at 10' on center. D.O.T. Approved

## Storm Drain Filter Fabric

An economical solution to help keep unwanted debris from going down storm drains. Comes in a 5'x5' size so it will fit most any drain size. Easily cuts with a knife or scissors for a more custom fit.

Item# FF5X5

## Sand Bags

DIMENSIONS 14" x 26"

(SAND NOT INCLUDED)

Item# SANDBAG-W (WHITE PLASTIC)  
SANDBAG-B (BURLAP)

Our Standard Sand Bag, 14" x 26" with a tie string. Always available in large quantities for all your emergency flood control or erosion needs. Bags come in white uv treated polybag or Burlap.

## Filled Gravel Bags

Item# FGB  
DIMENSIONS 14" x 26"

Item# GFGB  
DIMENSIONS 14" x 30"

Bags are made of a tough durable material that can handle almost anything you throw at it and at the same time filters sediment from water flow to keep drains clean and clear from debris.

Yellow bag contains (Gravel only)

Green bag contains (Gravel / straw mix)
